## **Black Friday: Florida Horse Racing Going, Going ...**

<http://www.sunshinestatenews.com/story/black-friday-florida-horse-racing-going-going>

**Abraham Lincoln said, “What is morally wrong can never be politically right.”**

Consider for a moment the bills in the Florida Legislature that will expand the number of slot machines in our State. Modern day slot machines are sophisticated computer devices designed to addict the gambler into oblivion.

[www.youtube.com/watch?v=rLD17r0U2D0](http://www.youtube.com/watch?v=rLD17r0U2D0)

A majority of “yes” votes will surely result in a whole new level of personal and family destruction. Knowing that and voting “yes” anyway, is morally wrong. It will never be politically right.

How can it be right for legislators to approve machines that will knowingly encourage constituents to become losers? ...and by-passing the Constitution in so doing! Surely the money gained by our government will never be worth the price paid by many families. If there was ever bad public policy, it is this!

The present proposals to “decouple” greyhound racing would permit the tracks to stop racing dogs, and replace them with slot machines, the “crack cocaine” of gambling addiction. If tracks want to stop racing dogs that’s fine----turn in your license and stop. But don’t expect the State of Florida to give you sophisticated slot machines in exchange, especially ones that are designed to make the player lose everything. This is not harmless entertainment.

Abe Lincoln would say NO, and so should we. Make your voice heard. Contact your Senator and Representative today. Tell them to vote NO on “decoupling”.
